DETAILS OF THIS COVERAGE

Maternity Coverage

Total disability due to pregnancy will be covered under this plan as any other sickness under this plan.

Organ Transplant

If you donate an organ, you will receive disability benefits from the first day of the resulting Total Disability. Your coverage must be in effect for at least six months to be eligible for this benefit.

Rehabilitation Assistance

To help you to return to work, the insurance company may provide you with rehabilitation professional to review your case history and determine the potential for returning to the workforce. If you are identified as a probable candidate for rehabilitation, you will have the option of participating in an approved program at no cost to you, and you will continue to receive monthly benefits during your rehabilitation.

Waiver of Premium

After you have been totally disabled for six consecutive months and you begin to receive benefits for total disability, all future premiums under the plan will be waived for as long as you receive benefits for that disability.

Residual Disability Benefit

This benefit is designed to help you in the event you return to work and receive lower income than prior to your disability. Certain requirements must be met to receive this benefit: you must become disabled prior to age 64, receive benefits for at least one month, and return to work before reaching your maximum benefit period. Also, upon returning to work, your earning must not exceed 75% of your pre-disability average earnings.*

Residual benefits will be paid as long as disability benefits would have been paid had your total disability continued or until your income exceeds 75% or your earnings prior to your disability, whichever occurs first.

Your residual benefit will be a percentage of your disability benefit, equal to the percentage reduction of monthly earnings.

Example: If your last monthly total disability benefit was \$2,000 and your current earnings are 40% lower than your income prior to your disability, your residual benefit would be 40% of \$2,000, which comes to \$800.

Residual benefits will be paid as long as disability benefits would have been paid had your total disability continued or until your income exceeds 75% or your earnings prior to your disability, whichever occurs first.

If you have successive periods of disability that are due to the same or related causes and are not separated by a return to full-time work for three months or more, this will be considered one period of disability. Additionally, all unrelated disabilities that are not separated by a return to full-time work will also be considered one period of disability. Those disabilities that meet these separation requirements will be treated as a new disability, subject to a new waiting period.

Survivor's Benefit

In the event you die while receiving benefits under this plan for total disability that lasted at least 30 consecutive days immediately prior to the day of death, the plan will provide a final benefit equal to 30 times the benefit paid for your last day of disability.

Liberalized Waiting Period Provision

Regardless of the waiting period you select, you may satisfy it with non-consecutive days of disability, provided they occur within a period no longer than twice the length of the waiting period for your chosen plan. For example, within 60 days for the 30-day waiting period, within 180 days for the 90-day waiting period, and within 360 days for the 180-day waiting period.

Exclusions and Limitations

Benefits are not provided for total disability due to: injury or sickness which is not regularly treated by a physician other than you or a member of your family; war or military service; self-inflicted injury (while sane or insane); an injury or sickness resulting from the committing of a felony, the attempted committing of a felony, or engaging in any illegal occupation or activity. If New York Life places an Impairment Restriction on your coverage, benefits are not payable for the disability due to the condition(s) outlined in the Impairment Restriction. Disabilities due to mental or nervous disorders, alcoholism, chemical dependency, or drug addiction will be subject to a two-year maximum benefit period.

*Pre-disability earnings are an average of gross monthly earnings for the 12- or 24- month period immediately preceding the onset disability, using the period that provides the highest average.

DETAILS OF THIS COVERAGE

Pre-Existing Condition Limitation

A pre-existing condition is any sickness, accidental injury, or related condition for which you consulted a doctor, received medical services or supplies, or took medication during the 90-day period immediately prior to the effective date of your coverage.

If you become totally disabled due to a pre-existing condition within one year after your coverage effective date, benefits will not be payable. After you have been continuously insured under the plan for 12 months, pre-existing conditions will be covered unless specifically excluded by an Impairment Restriction on your Certificate of Insurance.

Coverage Renewal

Your coverage can remain in force until you reach age 70 as long as you remain a TSCPA member or employee of a TSCPA member, you continue working at least 20 hours per week (unless there is a covered total disability), you pay your premiums when due, the group policy remains in force, and you do not enter Active Duty in the Armed Forces.

This group policy may be terminated by the TSCPA Insurance Trust or New York Life Insurance Company.

30-Day Free Look

If you are not completely satisfied with the terms of your Certificate of Insurance, you may return it, without claim, within 30 days. Your coverage will be invalidated and you will receive a full refund—no questions asked!

- > Select your payment option
- > Select plan: Plan 65 or Plan 5
- > Decide which day you want your benefits to begin (31st, 91st, or 181st days of disability)
- > Determine your desired monthly benefit (up to 60% of your gross monthly income). If you are age 55-59, you may apply for a maximum monthly benefit of \$600.
- > Multiply the appropriate rate for your age by the number of \$100 units you require.

Important Premium Information

Your premium is based on your age when coverage is effective and increases as you attain a new age class. Coverage terminates at age 70. Benefits are subject to change by agreement between New York Life and the Trustees of the TSCPA Insurance Trust. Premium contributions may be changed by New York Life on any premium due date, and on any date which benefits are changed.

However, your rates may change only if they are changed for all other in the same class of insureds under this group policy. For example, a class is a group of people with same issue age and gender.

Monthly Benefits Available

You may request a monthly benefit from \$200 to \$5,000 in \$100 units. The amount requested, when combined with all other disability insurance benefits you already carry, cannot exceed 60% of you gross monthly earnings. All applicants age 55-59 may apply for a maximum \$600 monthly benefit.

All benefit payments will be made directly to you and may be used in any way you choose.

Choice of When Benefits Begin

You choose when you want your monthly benefits to begin—on the 31st, 91st, or 181st day of total disability. The longer you wait, the lower your premium.

When does my coverage start?

All coverage is subject to underwriting approval. If your application is approved, your coverage will take effect on the date specified by New York Life Insurance provided your premium has been paid and you are performing the normal activities* of a person in good health of like age. If a person is not performing normal activities* on the date their coverage is effective, their effective date will be deferred until they are performing the required activities,* provided they resume normal activities within three months of their original effective date and they remain eligible.

*Residents of NC: Any reference to "performing the normal activities of a person in good health of like age" is replaced with "by the requirement that the health status of the proposed insured remains the same as stated in your application."

How is total disability determined?

You will be considered totally disabled as long as you are completely and continuously incapacitated and cannot perform the material and substantial requirements of your own occupation—not just any occupation you might be reasonably qualified to perform.

You must also be under the care of a qualified physician (not including yourself or a member of your family) and you may not be working in any occupation for wage or profit during disability.

This coverage does not require hospital or home confinement to be eligible to receive benefits.
